

Team Name: Good_Tomatoes

Team Members: Gordon Lei, Sonal Parab, Manahal Tabassum, Angelica Zverovich

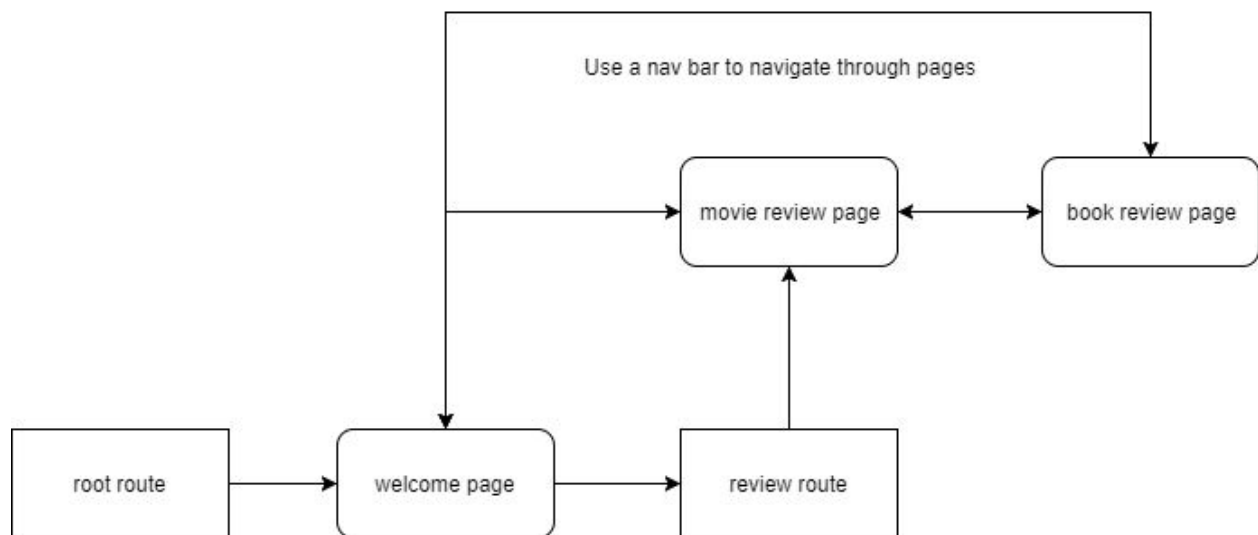

About [NAME TBD]

A site where you can search for movie or book reviews. If a movie was a book adaptation, the book reviews will be linked below, and vice versa. If a movie has an associated soundtrack, it will be displayed with the movie reviews. This will be done using the NY Times Movie Review, Goodreads, and Spotify APIs.

Component Map

Site Map

- Welcome Page:
 - Center of the page has a search bar (used to search for a title).
 - There is a Nav Bar where you can select to find only book reviews or only movie reviews.
- Book Review Page
 - Shows the book review of the searched title if applicable.
 - Has the same nav bar as the welcome page with the added option of returning back to the Welcome page.
- Movie Review Page
 - Shows the movie review of the searched title if applicable.
 - Shows the soundtrack of the movie if applicable
 - Has the same nav bar as the welcome page with the added option of returning back to the Welcome page.
 - However, if you are searching through the Welcome page's search bar, the book review will also pop up if applicable.
